«FACILITY»

«FAX»

I am excited to invite you and your colleagues to experience Synergicare's two new Wound Care Conferences. Developed and taught by nurses working in the field, they provide state-of-the-art knowledge to caregivers in long term care facilities, hospice, home health, acute care, and outpatient settings.

Participating nurses get a comprehensive look at wound care and advances in healing modalities, enhancing your facility's overall clinical practice and improving patient quality of life. Stressing both healing and prevention, your mobility-limited, geriatric, diabetic and other at-risk patients will benefit from the knowledge you will gain.

Janette Dietzler, BSN, RN, CWS, FACCWS  
President, Synergicare LLC

**About Synergicare:**

Synergicare was founded in 2007 with the mission of improving patient quality of life by providing high quality education, training and other materials to healthcare providers. We are in the St. Louis metro area.

### Conference 1

# Wound Care 101 Fundamentals

## in Wound Care

8.0 Contact Hours will be provided in Wound Prevention, Care and Healing for RNs, LPNs, and other Caregivers

### – New Revised Agenda –

Our original Wound Care 101 Conference has been revitalized with new updates, and redesigned to better meet the needs of nurses in the field.

- Overview of Wound Healing
- Pressure Ulcer Prevention & Management
- Differentiating Lower Extremity Ulcers
- Advanced Wound Care Therapies

**Attendees will be able to:**

- Identify how wounds are classified according to etiology & depth, including updates in NPUAP Pressure Ulcer Staging system.
- Describe the phases of wound healing.
- List CMS-mandated wound characteristics to document as part of a comprehensive wound assessment.
- List common ways to prevent pressure ulcers
- Identify different lower extremity ulcers and corresponding treatments
- Describe mechanism of action for wound healing using most common advanced wound products
- List possible therapeutic approaches using advanced therapies

### Conference 2

# Wound Care 201 Advances

## in Wound Care Management

7.5 Contact Hours will be provided on Advanced Topics in Technology, Pain Management & Infection Control

### – New Advanced Conference –

Our intensive Wound Care 201 Conference focuses on topics you have requested, and emphasizes in-depth approaches to specific topics.

- Wound Assessment and Healing
- Diabetic Wounds & Treatment Options
- Therapeutic Approaches using Advanced Wound Therapies
- Pain Screening Tools & Guidelines for Pain Management
- Wound Infection and Interventions

**Attendees will be able to:**

- Identify best practices for diabetic wound salvage
- Demonstrate wound assessment and corresponding interventions for optimal wound healing
- Identify common wound care modalities and ways to assess efficacy
- Implement advanced wound care technologies
- Choose and utilize standard pain scales, pain assessment tools, and discuss guidelines for pain management
- Identify signs and symptoms of infection and determine interventions
